

## CANTILEVER RACKING

Our Cantilever Racking is the perfect, cost effective storage solution for long & awkward items.

Each bay comes complete with 3\* arms per upright with end stops to secure any loose products from falling. Uprights can be spaced at 1000mm or 1500mm apart with bracing so you can build runs as starter and extension bays.

Arms are fully adjustable at every 100mm and are available in either 500mm or 1000mm in length to suit a wide range of applications.

- Height – 2575mm
- Arm Length – 500mm or 1000mm
- Bay centre's – 1000mm or 1500mm
- Loading – up to 500kg per arm
